Synergy in grape & wine research

*Australia – Italy
Grape and Wine Symposium*

Monday 7 December

Plant Research Centre Auditorium, Waite Campus

PROGRAM

- 13.15 Welcome and introduction
- 13.20 Professor Mario Pezzotti, Department of Biotechnology, University of Verona, Verona, Italy
To ripen or not to ripen: that's the question.
- 13.50 Dr Christopher Davies, CSIRO Agriculture, Adelaide, Australia
Grape berry ripening – Who's in control?
- 14.20 Dr Giorgio Gambino, Institute for Sustainable Plant Protection, National Research Council of Italy, Turin, Italy
Molecular and biological interactions between grapevine, virus and environment
- 14.50 Questions
- 15.00 Refreshments**
- 15.30 Professor Fulvio Mattivi, Department of Food Quality and Nutrition, Research and Innovation Centre, Fondazione Edmund Mach, San Michele all'Adige, Italy
The changes of wine composition depending on storage temperature and of oxygen levels at bottling, measured via untargeted metabolomics
- 16.00 Dr Markus Herderich, Australian Wine Research Institute, Adelaide, Australia
Towards a scientific interpretation of the terroir concept: plasticity of the grape berry metabolome
- 16.30 Dr Anna Schneider, Institute for Sustainable Plant Protection, National Research Council of Italy, Turin, Italy
Grape varietal identification: the role of molecular markers and morphology
- 17.00 Questions
- 17.10 Concluding comments

NB: The Symposium will be followed by the WIC End-of-Year Celebration, with drinks and nibbles provided in the PRC auditorium foyer. Please RSVP to Carolyn Gadd, WIC Executive Officer, for both events at carolyn.gadd@adelaide.edu.au by 2 December.

This symposium is supported by:
