## Italy: Research and Technology in Space Science

Canberra 21<sup>st</sup> October 2009

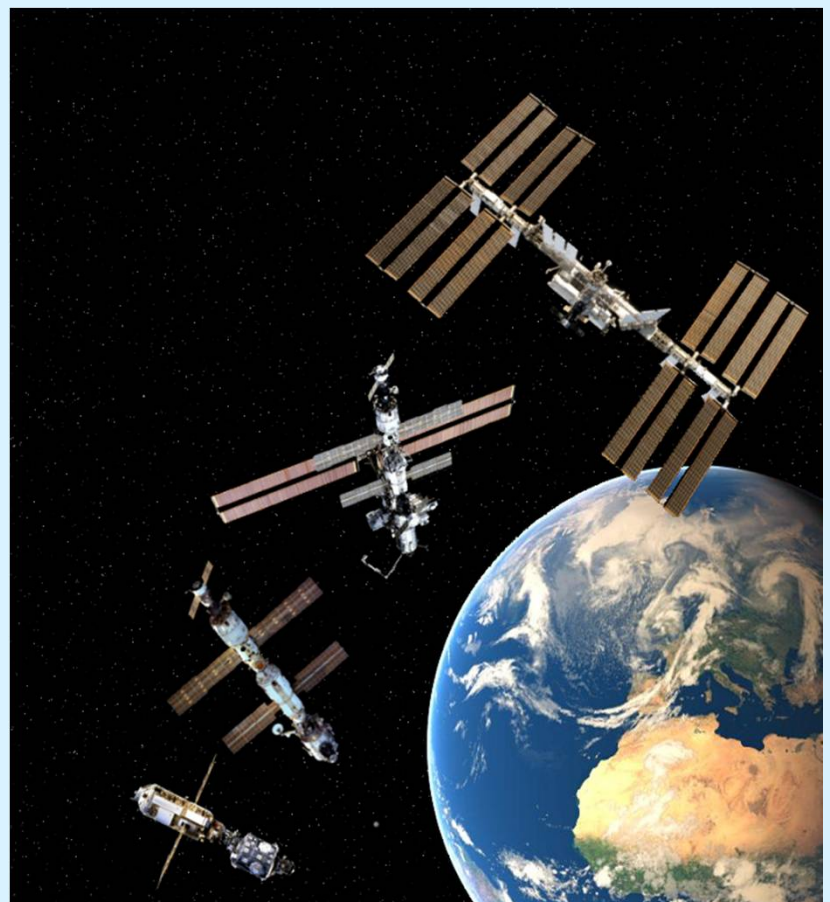

In collaboration with the Australian Academy of Science

Introduced by Oscar Moze, Scientific Attaché at the Embassy of Italy, this event will begin with two video presentations which will highlight the achievements of Italy in space science and technology.

The video presentations will be followed by two talks. Australia's future place in space will be discussed by **Prof. Steven Freeland**, University of Western Sydney. The involvement of Australian industry in Space and Astronomy will be discussed by **Brett Biddington**, Chairman of the Australia Telescope Steering Committee and Chairman of the Australian Space Industry Chamber of Commerce.

Wednesday 21<sup>st</sup> October, 6.30 pm, The Shine Dome, Gordon Street, Acton (ACT)
